Hokkaido Earthquake Update

We would like to express our deepest condolences to all those affected by yesterday’s earthquake in Hokkaido and our wishes for the earliest possible recovery.

Ichigo Green has confirmed that there was no damage at the Ichigo Abira Toasa ECO Power Plant, which was the only Ichigo Green power plant near the earthquake’s epicenter. Ichigo Green has also confirmed that there was no damage at any of its six other solar power plants in Hokkaido. All of the plants, including Ichigo Abira Toasa, are producing solar power as normal. Should material damages emerge, we will promptly disclose the details.
