Hokkaido Earthquake Update (2)

We would like to express our deepest condolences to all those affected by last week’s earthquake in Hokkaido and our wishes for the earliest possible recovery.

With grid connections having been re-established by the Hokkaido Electric Power Company, all but one of Ichigo Green’s solar power plants are now fully operational and producing solar power as normal. Ichigo Green is performing final safety checks on the one offline plant, the Ichigo Muroran Hatchodaira ECO Power Plant, and expects to resume its operations tomorrow.
