Ichigo Joins RE100

Ichigo Green produces solar power in communities across Japan to contribute to Japan’s energy sufficiency via clean, safe, and local community power production while supporting the development of Japan’s capital markets. Ichigo Green currently owns and operates 15 solar power plants with a total output of 29MW. Including operating and in-development solar and wind power plants, total renewable energy output of the Ichigo group is currently on-track to reach 200MW.

Ichigo Green’s sponsor is Ichigo (2337), a Japanese sustainable infrastructure company. Ichigo’s Clean Energy business makes productive use of idle land to produce renewable energy, and its Sustainable Real Estate business preserves and improves real estate, lengthening buildings’ useful lives beyond 100 years.

In line with Ichigo’s mission to contribute to a more sustainable society, Ichigo has joined RE100, a global initiative to accelerate the transition of electricity used by businesses to 100% renewable energy.

**Ichigo RE100 Target:
Sourcing 100% Renewable Electricity Across Its Operations by 2040**

Ichigo is committed to sourcing 100% renewable energy across all Ichigo, Ichigo Office (8975), and Ichigo Hotel (3463) assets by 2040.

Ichigo and Ichigo Green believe it is our social responsibility to pursue these initiatives and protect the environment for future generations. Ichigo Green is working with Ichigo to realize a Net Zero Carbon society by generating renewable energy while minimizing our environmental impacts, contributing to local communities, and growing long-term shareholder value.

RE100

**CLIMATE
GROUP**

Message from Mike Peirce, Corporate Partnerships Director at the Climate Group

By joining RE100 and transitioning to 100% renewable electricity, Ichigo is leading on climate action. It's fantastic to see growing corporate demand for clean energy. Now we need the Government to play its part by setting a more ambitious renewable electricity target – this will increase supply and help many more companies to follow in Ichigo's footsteps.

About RE100

[RE100](#) is a global initiative bringing together the world's most influential businesses committed to 100% renewable power. Led by the [Climate Group](#) in partnership with [CDP](#), the group have a total revenue of over USD 6.6 trillion and operate in a diverse range of sectors. Together, they send a powerful signal to policymakers and investors to accelerate the transition to a clean economy.
